Dear Teachers,

Thank you for downloading my sight word book! I send this book home with my students for homework. They are asked to practice the marked list for five to ten minutes every night. At the end of the week, I assess their progress and highlight the words they know.

There are different ways to assemble this book. I copy the cover on cardstock and spiral bind the book together. You could also hole punch the pages and add them to a folder to be sent home. Another option would be to send one list home at a time.

I hope that you will enjoy using this sight word book! I plan on posting two more sight word books with additional words soon. Check my blog for more details regarding the other two books. Please contact me if you have any questions at learningwithahappyheart@gmail.com.

Thanks,

Samantha Halbert

SIGHT WORD
BOOK

Fry's Instant Words (1-100)

please return to school every day.

Dear Parents,

This is your child's Take Home Sight word Book. The words in this book come from Fry's Instant word List. Fry's Instant word List ranks the most common words in the English language in order of frequency. This book contains the 100 most commonly used words. The goal of this book is to increase your child's fluency. After practicing these words, your child should be able to look at each word and read it within three seconds.

Please spend 5-10 minutes each day studying this workbook with your child. The sight words are each followed by a sentence using the word. The sentence is to help your child figure out the word through context. The list your child is currently studying will be marked with a Post-it note. I will assess your child's mastery of the word list each week. The words that your child can identify will be highlighted. Please review any words your child might have missed. After they have mastered every word on the list, they will color in the picture on the bottom of the page. Here are some tips for studying the words:

1. As you study the list, vary the order of the words.
2. Get creative! Your child can use shaving cream, play dough, noodles, wet spaghetti, or any other item you can think of to create these words.
3. If your child has difficulty reading the word, the adult can read the sentence saying "blank" in place of the underlined word. Your child should be able to identify the word through context and by seeing the beginning and ending letters of the word.
4. Please go back and review previously mastered sight word lists.

Your child's progress with these words will be monitored regularly so please return the book to school every day. If you have any questions or concerns, please let me know. I appreciate your support!

Thanks,

Word List #1

the

that

as

of
